TEXAS STATE SOIL AND WATER CONSERVATION BOARD

JOB POSTING

CLASSIFICATION:	Engineer II
STATE CLASSIFICATION CODE:	2152/B22
HEADQUARTERS:	Temple, TX
STARTING ANNUAL SALARY:	\$30,000.00
TRAVEL REQUIREMENTS:	As needed
POSITION REPORTS TO:	State Engineer

FLSA Exempt Part-time position-16 hours per week required

GENERAL DESCRIPTION

Performs moderately complex engineering work in agency flood control program. Work involves performing or reviewing dam assessments, planning, design, construction inspection, dam safety and hazard classification of dams for the flood control program on a statewide basis. Develops and manages contracts and agreements for the flood control program.

EXAMPLES OF WORK PERFORMED

Provides engineering work related to agency activities on the USDA Natural Resources Conservation Service (NRCS) Small Watershed Program dams, which includes watershed planning, dam safety, dam repair, dam rehabilitation, and operation and maintenance of watershed program dams. Provides public information and engineering assistance to Soil and Water Conservation Districts as necessary to support the watershed program activities.

Develops and manages indefinite delivery indefinite quantity (IDIQ) contracts with private engineering firms for dam assessments, planning, design, and construction services for flood control dams.

Develops and manages agreements with flood control program sponsors for maintenance, repair, and rehabilitation of dams.

Oversees the collection of engineering data, GIS development and implementation and other related activities of agency staff. Prepares or reviews economic, and environmental assessments.

Provides technical support and training to other staff as necessary.

Provides consultant and liaison services to internal and external organizations regarding engineering concepts, solutions to problems, and changes in policies and laws.

Coordinates with NRCS and TCEQ and SWCDs on issues related to small watershed flood control dams program, such as O&M, dam safety, rehabilitation, etc.

Reviews and comments on rules and reports related to above programs.

Performs other duties as assigned.

GENERAL QUALIFICATION REQUIREMENTS

EXPERIENCE AND EDUCATION

Experience in engineering work. Graduation from an accredited four-year college or university with major coursework in engineering agricultural, civil, or other related engineering field. Experience and education may be substituted for one another.

KNOWLEDGE, SKILLS, AND ABILITIES

Must have a Texas Professional Engineer's license and at least 5 years experience in engineering related to flood control dams. Should have some knowledge of federal and state environmental and conservation laws, programs and agencies. Incumbent should have a working knowledge of standards and specifications for practices. Must have working knowledge of small watershed hydrology. Good communication skills, both written and verbal, are required. Must have a working knowledge of computers and appropriate software. Must be able to safely and legally operate a motor vehicle, safely lift (15-44 lbs) and sustain moderate physical activity with full range of motion in office and outdoor environments. Able to work irregular hours.

Registration, Certification, or Licensure

Must be licensed as a Professional Engineer by the State of Texas.

APPLICATION PROCESS

A completed, signed State of Texas application for Employment is required for this position. Mail an original application to the address below. Resumes may be submitted but will not be accepted in lieu of the application. A State of Texas application for Employment may also be completed on the WorkInTexas website at <http://www.workintexas.com>.
